Church bulletin board

The following appeared in church bulletins
or were announced at church services.

The sermon this morning: 'Jesus Walks on the Water.' The sermon tonight: 'Searching for Jesus.'

Ladies, don't forget the rummage sale. It's a chance to get rid of those things not worth keeping around the house. Bring your husbands.

Don't let worry kill you off – let the Church help.

Miss Charlene Mason sang 'I will not pass this way again', giving obvious pleasure to the congregation.

For those of you who have children and don't know it, we have a nursery downstairs.

The Rector will preach his farewell message, after which the choir will sing 'Break Forth Into Joy'.

Irving Benson and Jessie Carter were married on October 24 in the church. So ends a friendship that began in their school days.

Potluck supper Sunday at 5pm – prayer and medication to follow.

The church will host an evening of fine dining, super entertainment and gracious hostility.

At the evening service tonight, the sermon topic will be 'What is Hell?' Come early and listen to our choir practice.

The ladies of the Church have cast off clothing of every kind. They may be seen in the basement on Friday afternoon.

This evening at 7pm there will be hymn singing in the park across from the Church. Bring a blanket and come prepared to sin.

Low Self-Esteem Support Group will meet Thursday at 7pm. Please use the back door.

The Associate Minister unveiled the church's new tithing campaign slogan last Sunday: 'I Upped My Pledge – Up Yours.'

This being Easter Sunday, we will ask Mrs Lewis to come forward and lay an egg on the altar.

Compiled by Max Bowen

Learning to Love Moles!

Many of us rarely if ever see an actual mole and apart from Moley in *The Wind in the Willows*, the other famous mole is '*the little gentleman in black velvet*' toasted by Jacobites as William of Orange is said to have died following a fall after his horse tripped on a molehill.

We do however see signs of moles, their molehills. Moles breed in spring, between February and June and this is a time when we see new molehills that have been dug by male moles expanding their tunnel network in search of female mates. They also create spherical nests which they line with dry leaves and grass and the moles will sleep in these nests as well as rearing young there.

Male and female moles spend most of the year alone, living underground and feeling their way around their network of tunnels using their sensitive noses and also their tails. They have poor eyesight and are at risk from predators when above ground but underground they are in their element, using large, spade-like forelimbs to expand the tunnel network as needed. Most of the tunnels are permanent and quite deep and may cover hundreds of metres. Moles are fiercely territorial, familiar with their own tunnels and using them to suit the season. In colder or drier weather, they head for their deepest tunnels where their main food, earthworms, will be found. A tunnel network is thought to last for many years, through several generations of moles.

Moles feed mainly on earthworms they create a winter 'larder' by storing earthworms in a chamber, keeping them alive but immobilising them with a bite to the head segment. Up to 450 worms have been found in one chamber.

Moles used to be killed in large numbers by trappers to make moleskin clothes from their pelt, and were thought of as a problem needing controlling. Actually, moles are both friend and foe to the site manager, friends as they eat many pests such as wireworms, slugs and snails and also aerate the soil with their tunnelling, foe as they throw up molehills which some see as a problem. There are numerous theories as to how to get rid of moles: burying glass bottles, garlic or elder twigs pushed into the molehill to name a few. Poison and traps are cruel and are not recommended. Actually, getting rid of your resident mole may not be a good idea as it leaves a territory open for another mole to move in. It may be best to learn to live with your mole and to press molehills back into the ground or move the soil to flowerbeds or planters. The bare ground they produce also makes space for wildflower seeds to germinate which may not happen in a tight grass sward. So, all in all, moles add to the rich diversity of life found within our churchyards and we need to learn to love them!

Community Magazine

There has been zero interest in taking over control of the magazine so it has been decided that the next issue, June, will be my final one.

I've enjoyed the last, some 45yrs, especially coming to know contributors well, sadly many are no longer with us. I would like to thank all those who have proof read for me and various treasurers over this time. Thank you all.

What I will not miss is having to be indoors on glorious days like those we are currently experiencing typing and compiling the magazine. Input has most definitely declined since modern day forms of communication have allowed events to be broadcast immediately. These have become the norm and of course they are free of charge.

I will also not miss having to arrange holidays around deadline dates especially when there was a bargain to be had!!! Or not being able to spontaneously enjoy a midweek/weekend break when glorious weather was forecast. Nor chasing up folks for their donations or copy.

I first started this task all those years ago by travelling over from Butterson to the Vicarage at Alstonefield, either after an early shift, before a late shift or when I woke up after a night shift. In those early days the magazine was simply produced, typed onto a stencil which was then run off by the vicar in the office. Later being collated and stapled together by the ladies of Alstonefield. I had the easy task, the putting together and stapling being more onerous. Then followed the hand delivery of the magazine to all households in the then Benefice by a huge team of volunteers from each village.

The advent of computerization has not sat well with myself, having not been born with an electronic gadget in my hands, and believe it or believe it not I manage very well without a mobile telephone!!

The Peak District National Park Authority is looking for two new Members

The UK's original National Park is looking to welcome two new Secretary of State-appointed Members to the National Park Authority and applications are now open.

The new Members will bring their knowledge, passion and experience to help shape the future of the National Park at perhaps one of the most challenging periods in its almost 75-year history.

The Peak District National Park Authority operates with 30 Members. Sixteen are appointed by county, district, city or borough councils and fourteen are appointed directly by the Secretary of State, of these 6 are parish councillors selected through a ballot of parish councils and parish meetings, and 8 are appointed because they are specialists in the issues that affect the National Park. The two Member vacancies are in this latter category.

Members have an important role in overseeing the management of the National Park. Their specialist knowledge and insight is invaluable in providing leadership and strategic expertise to ensure the Authority delivers for national and local communities.

Members come from a range of backgrounds and offer a wealth of knowledge and experience, but they all share a passion for the Peak District National Park. They devote between one and four days a month to Authority business, serving on committees or attending workshops or training. Members are not paid a salary for their work, but they do receive allowances.

To find out more or for any informal questions please contact Customer & Democratic Services, Peak District National Park Authority, on 01629 816200.

People are asked to apply online for the Peak District National Park Member vacancies through Defra (Department for Environment, Food and Rural Affairs). Go to <https://apply-for-public-appointment.service.gov.uk/roles/8166>

The deadline for applications is 19th May. Appointments are for up to four years.

Butterton History Group

Our celebration event for the ending of WW11 will be in September. Plans are being made for large poppies to be placed on various poles and posts in the village. One for each of our 16 Doubly Thankful men. Each will bear the name of one of the men and it is hoped it will be placed as near to where the men lived 80 years ago as possible. Maggie is asking for some very tall people to help out or someone with ladders. Please contact her if you can help. She is looking to place them on or about Monday 5th May.

Also to commemorate VE Day, each of the men has a biofile of their details and these will be on display in church. Do pop in and take a look. They will be in church from Monday 5th- Sunday 11th. Maggie will be in church on Thursday 8th and would welcome your company. The kettle will be on!

Message from the Community Bus Shelter

The Butterson Bus Shelter has been open for a month, and what a month it has been; we received lots of donations of books and 'stuff' and at times we could have done with an extension to the Bus Shelter to accommodate it all. You had saved it up for us over the winter – thank you. The surge in stock is also reflected in generosity of financial donations: at the time of going press, it looks like being a very good month. Again – thank you to everyone.

The Shelter Elves have been busy asking for suggestions for how the Bus Shelter charity will use its funds this year.

Remember it is a local charity, and your opinions count.

Email suggestions to buttertonbusshelter@gmail.com or catch one of us in the village. We will give you an update on this in the June newsletter.

Please remember, we do ask for donated items to be clean and in good condition to maintain the high standard we aim for. Do get in touch if you have something to donate, and would like to discuss it: email buttertonbusshelter@gmail.com or phone 01538-304408. We'll be happy to chat.

For 2025, you can donate in cash or if not convenient you can use your credit/debit card using the QR code in the Bus Shelter (or make a BACS payment to our bank).

More details about the charity can be found on the village website where there is also a 'Donate' button (<https://butterton.org.uk/bus-shelter-charity>) if you want pay for something from the Bus Shelter.

Please make sure items left in the Bus Shelter are CLEAN and intact. Electrical or Mechanical items should work (label them 'WORKING ORDER'). We will be obliged to remove anything which is inappropriate or potentially dangerous.

Ilam School

As we approach our Easter break, we are taking a moment to reflect on all of the wonderful adventures we've managed to pack into a busy half term! We're so grateful to be able to offer the children learning opportunities that go above and beyond, we hope that they create lasting memories for our children.

Recently, we invited all of our school community mums in for a special Miss Lisa Mother's Day roast dinner. It was a wonderful event and the children loved having their special guests in school.

Our older children ventured off to QEGS to watch their amazing Westside Story performance. With some familiar faces in the production, it was amazing to see our former pupils take to the stage. We watched with pride, well done everyone!

We also held our Aspirations Day in school and as we looked to the future with our children, we welcomed input from QEGS agriculture staff, Derby Museum, an Archaeologist, the police, first responders, the National

Trust and a lorry driver. It was a truly amazing day and the children left feeling thoroughly inspired!

With support from Lidl community projects, we also held a healthy eating day in school. The children made delicious foods for us to try and enjoy. From salsa to yogurt bark, wild garlic buttered bread to fruit kebabs and guacamole, we enjoyed every moment learning skills for life.

We've also had a little rebellion in school with our Break the Rules Day! The children stunned us with their colourful hair, nightwear, face paint and dress ups! It filled our school with joy!

As we conclude our last week of term, we've enjoyed a worship from our new Vicar Reverend Patrick. His interactive Easter story was great and the children asked endless questions to learn a little more about him. We look forward to the next visit!

We also enjoyed a visit from the National Trust in preparation for our workshop after Easter. We are so lucky to be working with them alongside their instructed artists Bruce Asbestos as they create a series of sculptures for Ilam Park. What a privilege!

We finish term with our Easter play telling our own version of the Easter story, a wonderful way to round things up!

Wishing everyone a wonderful Easter! Please do contact us if you would like to visit and see our beautiful school for yourself!

St. Lawrence

We pray for anyone who is ill or waiting for an operation at this time. We especially think of Father Arthur Hack.

We would very much like to thank the person who repaired the collapsed grave near the church door recently. Please could you let us know who you are?

Thank you to Janet and to Roger Pegg for the lovely Easter flowers displayed for Easter Sunday.

You may have seen a new sign on the church gate from the Commonwealth War Graves Commission. We have been waiting a long time for this sign to be put up and it commemorates two casualties of the First World War. The details we have been given are:

Walter John Salt, Gunner, 112th Heavy Bty., Royal Garrison Artillery. Died 2nd November 1918 aged 24 years From Clough Head, Warslow

J.S. Wain, Private, North Staffordshire Regiment. Died 6th March 1919 aged 25 years. From Brownlow, Warslow

They are both buried in Warslow Churchyard.

History of Hay Meadows

**Presented by
Ann Cantrell**

**of
White Peak Farmers**

**Wednesday May 7th at 7.30 (doors open 7pm)
Warslow Village Hall, SK17 0JL**

Hay meadows are ancient systems associated with farming and with which we have a long cultural association. The talk will present a history of hay meadows by taking a look at the different types of meadows that people and animals have developed over hundreds of years, and how and why they have shaped and managed them.

Ann is a farm and wildlife advisor who now works in a freelance capacity having previously had roles with organisations such as Staffordshire Wildlife Trust, Natural England and Peak District National Park. Her previous talk at History Live was hugely popular so we have invited her back!

Doors will open at 7pm to give you time to have a drink, a cake and a chat!

No need to book – just turn up. Entrance is just £4 including refreshments.

** We are always grateful to receive cakes to share at our events. If you can help, please let Elspeth know the weekend before the meeting so she can plan. Email her on elspethjwalker@gmail.com or ring 01298 83282. Free entry to the talk if you bring a cake! **
